SYNTHETIC PHASE III RANDOMIZED CONTROLLED TRIAL · REGISTRY SYN-NCT099412

# CARDIO-PROTECT-SYN: Oral Factor XIa Inhibition vs Standard Antiplatelet Therapy After NSTEMI

## A. CONSORT PARTICIPANT FLOW

**Enrollment**

**Assessed (N = 1420)**

Screened across 42 sites

**Excluded (n = 580)**

- Ineligible eGFR < 25 or active bleed (n = 384)
- Declined informed consent (n = 142)
- Prior anticoagulation indication (n = 54)

**Randomized (N = 840)**

1:1 Stratified by Killip Class & Renal Function

**Allocation**

**FXIa Inhibitor + ASA (n = 420)**

Received regimen (n = 416)
Did not receive (n = 4)

**Placebo + ASA (n = 420)**

Received regimen (n = 418)
Did not receive (n = 2)

**Follow-Up**

**Follow-Up**

Lost to follow-up (n = 5)
Discontinued tx (n = 18)

**Follow-Up**

Lost to follow-up (n = 6)
Discontinued tx (n = 15)

**Analysis**

**Analysed (n = 420)**

Population: ITT
Excluded (n = 0)

**Analysed (n = 420)**

Population: ITT
Excluded (n = 0)

## B. SPIRIT TREATMENT & ASSESSMENT TIMELINE

| Day -5 to 0 | Day 1 | Month 1 & 3 | Month 12 | Month 13 |
|---|---|---|---|---|
| NSTEMI Screen & Troponin | 1:1 Randomize Start Regimen | Safety Labs & Adherence | Primary MACE Adjudication | 30-Day Safety Washout |

## C. PRIMARY & KEY SECONDARY ENDPOINTS

**[PRIMARY] 12-Month Composite MACE (CV Death, MI, Stroke)** — **HR 0.59 (95% CI 0.39–0.90)**

Active: 34/420 (8.1%) vs Control: 56/420 (13.3%) (P = 0.014)

**[SECONDARY] ISTH Major or Clinically Relevant Bleeding** — **HR 1.17 (95% CI 0.62–2.20)**

Active: 21/416 (5.0%) vs Control: 18/418 (4.3%) (P = 0.62)

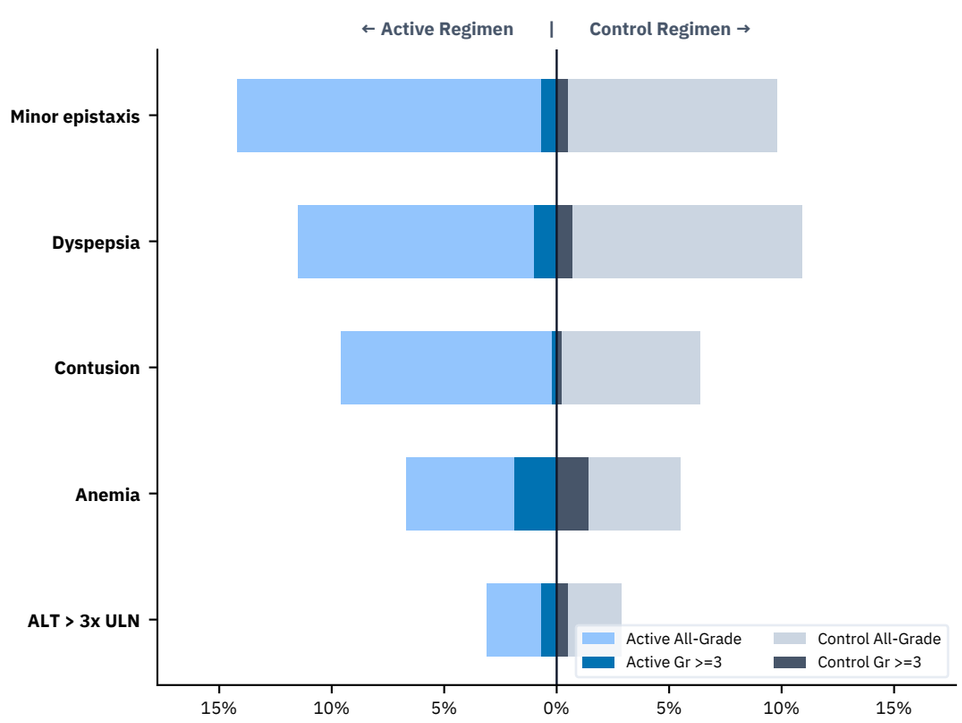
**[SECONDARY] Recurrent Spontaneous Myocardial Infarction** — **HR 0.56 (95% CI 0.32–0.99)**

Active: 19/420 (4.5%) vs Control: 33/420 (7.9%) (P = 0.044)

**[SECONDARY] All-Cause Mortality at 12 Months** — **HR 0.73 (95% CI 0.34–1.59)**

Active: 11/420 (2.6%) vs Control: 15/420 (3.6%) (P = 0.43)

## D. ADVERSE EVENTS (ALL-GRADE & GRADE >= 3, %)



SYNTHETIC PHASE III TRIAL EXAMPLE FOR SKILL VALIDATION · CONSORT counts verified: 1420 - (384+142+54) = 840 = 420 + 420.
